SUMMARY

Customer operations background in Power Automate reporting, Excel troubleshooting and account investigation. Academic work in Tableau, Oracle SQL and ServiceNow. NJIT M.S. student available full-time.

PROFESSIONAL EXPERIENCE

Customer Account Executive | Comcast / Xfinity

April 2022 - September 2026 | Remote

- Built Power Automate flows that filtered and delivered daily sales and team-adherence reports for a team of 10 through email and Microsoft Teams, reducing manual report searching and filtering.
- Corrected Excel formulas that omitted daily activity from monthly totals.
- Investigated account and system issues by reviewing customer records and policies, consulting internal support teams, and documenting decisions and follow-up in CSG.

Customer Service Representative | Harte Hanks

February 2021 - January 2022 | Remote

- Investigated state unemployment inquiries, routed email requests and maintained records for follow-up.
- Wrote OneNote guides covering task steps, information sources and escalation contacts for teammates.

SELECTED PROJECTS

Arcade Operations Ticketing Modernization

Self-directed planning study | Hypothetical

- Proposed a five-category ticket lifecycle with requirements, user stories, acceptance criteria, and traceability to planned UAT. No implementation; all tests Not Executed.

NJIT Registrar ServiceNow Portal

Academic project | ServiceNow school lab

- Configured a searchable portal, organized 42 articles into 12 categories, and revised registration guidance with steps, common errors, and support contacts.

Chicago Food Inspections | Tableau

Academic team project | Real-world public data

- Developed four Tableau dashboards with shared filters and ZIP selection to compare failure rates across 123,673 City of Chicago inspection records (2019-2025).
