BUSINESS ANALYSIS | REPORTING | BUSINESS SYSTEMS

Point Pleasant, NJ | Open to remote | jonathancapalbo1@gmail.com | jonathancapalbo.me | linkedin.com/in/jonathan-capalbo-2a00b9140 | github.com/jon314159

PROFESSIONAL SUMMARY

Customer operations professional with 5+ years of experience investigating policy and system issues, maintaining customer records, and coordinating follow-up. Builds Excel reporting workflows and develops requirements, process maps, and UAT plans through self-directed projects. Pursuing an M.S. in Business & Information Systems at NJIT.

CORE STRENGTHS

Reporting & Analysis: Excel reporting | Trend and exception review | Requirements analysis | Process mapping

Operations & Systems: Issue investigation | Documentation | User stories and acceptance criteria | UAT planning | Workload prioritization | Cross-team coordination

Tools: Excel (tables, cross-sheet formulas, SUMIF/COUNTIF, data validation, conditional formatting) | Power Automate | Microsoft Access | CSG | ServiceNow Knowledge Management and Service Portal (academic project) | SQL and Tableau (coursework)

PROFESSIONAL EXPERIENCE

Customer Account Executive

Comcast / Xfinity

April 2022 - Present

Remote

- Manage about 25 customer interactions daily, more than 5,000 annually, reviewing customer records and available options to identify appropriate actions.
- Investigate customer-record, policy, procedure, and system questions using current resources and internal support partners.
- Maintain accurate records in CSG and other internal systems, documenting decisions, follow-up, and cross-team handoffs.
- Use Microsoft Power Automate to organize my recurring tracking and follow-up.

Customer Service Representative

Harte Hanks

February 2021 - January 2022

Remote

- Investigated customer inquiries in a remote environment, recorded relevant details, and explained next actions.
- Prioritized, categorized, and routed email requests, maintaining organized records for team handoffs.

SELECTED PROJECTS

Excel Activity Reporting System

Portfolio Case Study | Fictional Data

- Built a 35-sheet Excel reporting system with 31 standardized daily views, centralized settings, and monthly consolidation.
- Added validation controls, configurable goals, and dashboard views to compare results and identify exceptions.

Arcade Operations Ticketing Modernization

Self-Directed BA Case Study | Simulated Scenario

- Designed a five-category ticketing pilot with current- and future-state workflows, 110 draft requirements, 34 user stories, requirements traceability, and 31 planned UAT cases.

Registrar ServiceNow Portal

Academic Project | ServiceNow Lab

- Configured a searchable portal, organized 42 lab articles into 12 student-facing categories, and revised registration guidance for steps, common errors, and support contacts.
