PROFESSIONAL SUMMARY

Business and Information Systems graduate student with 5+ years of customer-facing sales and service experience, CRM usage, account review, customer needs assessment, and process-focused support. Seeking Sales Operations Analyst, CRM Analyst, Customer Operations Analyst, Revenue Operations Analyst, or Business Systems roles where I can support reporting, workflow improvement, customer operations, and data-informed decision making.

TARGET ROLES

Sales Operations Analyst | CRM Analyst | Customer Operations Analyst | Revenue Operations Analyst | Business Systems Analyst

EDUCATION

New Jersey Institute of Technology, Newark, NJ

M.S. Business & Information Systems | In Progress

B.S. Business Administration, 2024 | GPA: 3.97 | Dean's List, all semesters

Relevant coursework: Web Systems Development, Enterprise Database Management, System Analysis and Design, Data Analytics for Information Systems, Business Operations Management & Analytics

PROFESSIONAL EXPERIENCE

Comcast / Xfinity, Remote

Sales Representative | April 2022 - Present

- Use CRM tools and internal systems to review account data, document customer interactions, and support sales-related workflows.
- Assess customer needs and recommend internet, TV, and mobile solutions based on account context, service options, and current offers.
- Apply changing promotions, policy updates, and internal documentation to customer conversations with accuracy.
- Support teammates by helping clarify system questions, internal procedures, documentation, and offer-related processes.
- Build transferable skills in customer operations, process interpretation, account review, stakeholder communication, and issue investigation.

Harte Hanks, Remote

Customer Service Representative | February 2021 - January 2022

- Resolved customer inquiries through clear communication, issue investigation, and accurate routing of requests.
- Reviewed and categorized email inquiries to support accurate and timely resolutions.
- Developed high-volume communication experience and process-focused customer support skills.

SELECTED PROJECTS

Calculator API

Built a FastAPI service with user registration, JWT authentication, PostgreSQL storage, calculation history, Docker, Alembic migrations, testing, CI/CD, and security scanning.

CAPSIM Andrews Company Report

Analyzed sales, market share, variable costs, net profit, cash flow, debt, equity, dividends, product strategy, and future goals in a seven-year business simulation.

Movie Rental Database

Created an Oracle SQL database with relational tables, primary and foreign keys, check constraints, sequences, sample data, views, an index, and a synonym.
