PROFESSIONAL SUMMARY

Operations and business systems candidate with 5+ years of high-volume experience, including 4+ years at Comcast/Xfinity. Brings practical experience reviewing account and policy information, documenting decisions, coordinating handoffs, and improving recurring work with Excel, Microsoft Power Automate, and basic scripting. Academic projects demonstrate reporting, data validation, process documentation, ServiceNow knowledge management, and business analysis. B.S. Business Administration with a 3.97 GPA; M.S. Business & Information Systems in progress.

CORE STRENGTHS

Excel reporting | Data validation and accuracy | Process documentation | Process improvement | Issue investigation | Workload prioritization | Cross-team coordination | Customer operations | Policy and procedure interpretation | Microsoft Power Automate | Basic scripting | ServiceNow Knowledge Management | Tableau (coursework) | SQL (coursework)

PROFESSIONAL EXPERIENCE

Comcast / Xfinity | Sales Representative | Remote | April 2022 - Present

- Manage about 25 customer interactions daily, more than 5,000 annually, by clarifying needs, reviewing account data and available options, and determining practical next steps.
- Investigate account, procedure, and system questions using current policies, knowledge resources, and support partners; organize findings and explain accurate next steps.
- Document interactions, decisions, and follow-up in internal systems with attention to accuracy, completeness, and timely handoffs.
- Adapt to frequent policy, offer, and tool changes; build Excel tracking tools and use Microsoft Power Automate and basic scripting to streamline recurring work.

Harte Hanks | Customer Service Representative | Remote | February 2021 - January 2022

- Investigated customer inquiries, documented relevant details, and communicated clear next steps in a remote, high-volume environment.
- Reviewed, categorized, prioritized, and routed email requests while maintaining organized records and consistent handoffs.

SELECTED PROJECTS

Excel Activity Reporting System | Fictional public demonstration

- Built an Excel activity reporting system that captures daily activity, consolidates results into a monthly dashboard, and compares overall goal attainment with day-to-day consistency.
- Added configurable goals, validation controls, and exception-focused views so users can identify gaps, review results efficiently, and focus follow-up on the days that need attention.

Registrar Knowledge Portal | ServiceNow school lab | Academic project

- Configured a searchable ServiceNow knowledge portal, organized 42 lab articles into 12 student-facing categories, and revised registration guidance for faster scanning of steps, common errors, and support contacts.

Business and Cost Analysis | CAPSIM | Academic project

- Reviewed seven years of sales, market share, costs, profit, cash flow, and product strategy, then summarized trends and recommended next steps.
