PROFESSIONAL SUMMARY

Operations and data analysis professional with 5+ years of customer operations experience, including 4+ years at Comcast/Xfinity. Uses Excel reporting, data analysis, and structured documentation to improve high-volume work involving approximately 25 customer interactions daily and 5,000+ annually. Ready to apply Comcast systems and policy knowledge to vendor data quality, purchase order reporting, spend analysis, procurement data integrity, audit support, and cross-functional decisions.

CORE SKILLS

Excel analytics and reporting | Dashboard-style report design (Power BI-aligned) | Vendor data quality | Purchase order reporting and exception tracking | Spend analysis and cost trends | Data analysis and data integrity | Process improvement | Audit-support documentation | Policy and process documentation | Cross-functional communication | Tableau and SQL exposure | ServiceNow knowledge management | Comcast/Xfinity operations

PROFESSIONAL EXPERIENCE

Comcast / Xfinity | Sales Representative | Remote | April 2022 - Present

- Handle approximately 25 customer interactions per day (5,000+ annually), navigating account data, offers, policies, documentation requirements, and internal support resources.
- Review account and customer data in internal systems; document activity, decisions, and follow-up with attention to accuracy and data integrity.
- Interpret changing policies and internal guidance, investigate questions with knowledge resources and support partners, and translate findings into clear next steps.

Harte Hanks | Customer Service Representative | Remote | February 2021 - January 2022

- Investigated customer inquiries, documented relevant details, and communicated clear next steps in a remote, high-volume environment.
- Reviewed, categorized, and routed email requests while maintaining organized records and consistent handoffs.

SELECTED PROJECTS

Sales Performance Tracker | Excel

- Built a workbook that standardized five recurring data categories - daily activity, product results, account notes, goals, and summary metrics - into one review-ready reporting source.
- Automated recurring cleanup and dashboard summaries, saving an estimated 2-3 hours weekly (100+ hours annually) while reducing manual re-entry, missing-field risk, and inconsistent reporting.

Knowledge Management and Documentation | ServiceNow, Microsoft 365

- Created support content and proposed a structured author, review, approval, and retrieval workflow for internal information.

Sales and Strategy Analysis | CAPSIM

- Analyzed seven years of sales, market share, costs, profit, cash flow, and product strategy to identify cost trends and recommend next steps.

Movie Rental Database | Oracle SQL

- Designed relational tables, keys, constraints, sample data, views, and an index to support consistent, queryable data.

EDUCATION AND PROFESSIONAL DEVELOPMENT

New Jersey Institute of Technology | Newark, NJ

M.S. Business & Information Systems | In Progress

B.S. Business Administration | 2024 | GPA: 3.97 | Dean's List, all semesters
