Academic lab: ServiceNow Knowledge Management and Service Portal.

Additional coursework: Tableau, Python, and Java.

EXPERIENCE

Customer Account Executive | Comcast / Xfinity

April 2022 - September 2026 | Remote

- Reviewed customer records and available options across about 25 daily interactions, documenting decisions, follow-up, and cross-team handoffs in CSG and other internal systems.
- Built Power Automate flows to post filtered reports to Teams. Automated daily Excel report distribution by email, scheduled messages, and confirmation emails.
- Investigated account and system questions by checking customer records, reviewing policies and procedures, and consulting internal support teams.

Customer Service Representative | Harte Hanks

February 2021 - January 2022 | Remote

- Investigated customer inquiries, categorized and routed email requests, and maintained records for follow-up and team handoffs.
- Created reference guides in Microsoft OneNote for teammates, supplementing limited official documentation with a basic knowledge resource.

SELECTED PROJECTS

Excel Activity Reporting System

Portfolio project | Fictional data

Built validated daily inputs, monthly consolidation, and a dashboard. Reconciled source records to totals and distinguished monthly product goals from a separate daily target.

Movie Rental Database | Oracle SQL

Academic final project

Built six related tables with primary and foreign keys, validation constraints, and a read-only view joining movie, copy, and rental records to identify unreturned copies.

NJIT Registrar ServiceNow Portal

Academic project | ServiceNow school lab

Configured a searchable portal, organized 42 lab articles into 12 categories, and revised registration guidance with steps, common errors, and support contacts.
