PROFESSIONAL SUMMARY

Operations and data analysis professional with 5+ years of customer operations experience, including 4+ years at Comcast/Xfinity. Builds Excel trackers and dashboard-style recurring reports, improves information workflows, and maintains clear, accurate documentation. Brings Comcast systems, policy, and frontline process knowledge, plus Tableau and SQL exposure and ServiceNow knowledge management training. Ready to support procurement data integrity, policy gap analysis, audit and compliance requests, and cross-functional reporting.

CORE SKILLS

Excel analytics and reporting | Dashboard-style report design (Power BI-aligned) | Data analysis and data integrity | Process improvement and gap-analysis mindset | Recurring-report automation | Audit-support documentation and compliance mindset | Policy and process documentation | Cross-functional communication | Tableau and SQL exposure | ServiceNow knowledge management | Comcast/Xfinity operations

PROFESSIONAL EXPERIENCE

Comcast / Xfinity | Sales Representative | Remote | April 2022 - Present

- Review account and customer data in internal systems; document activity, decisions, and follow-up with attention to accuracy and data integrity.
- Interpret changing policies, offers, and internal guidance; investigate questions using knowledge resources and support partners to enable consistent execution.
- Manage high-volume work involving multiple data points, required documentation, and follow-up while maintaining organized, review-ready records.
- Communicate findings and next steps clearly to customers, teammates, and support partners, translating complex system and policy information into practical action.

Harte Hanks | Customer Service Representative | Remote | February 2021 - January 2022

- Investigated customer inquiries, documented relevant details, and communicated clear next steps.
- Reviewed, categorized, and routed high-volume email requests to support accurate and timely resolution.
- Maintained organized issue records and consistent handoffs while balancing competing priorities.

SELECTED PROJECTS

Sales Performance Tracker | Excel

- Built a workbook to standardize daily activity, product results, account notes, goals, and summary metrics in a review-ready format.
- Automated routine cleanup and created dashboard-style summaries to surface trends, progress, and exceptions while preserving useful historical information.

Knowledge Management and Documentation | ServiceNow, Microsoft 365

- Created support content and proposed a structured author, review, approval, and retrieval workflow for internal information.

Sales and Strategy Analysis | CAPSIM

- Analyzed seven years of sales, market share, costs, profit, cash flow, and product strategy to identify trends and recommend next steps.

Movie Rental Database | Oracle SQL

- Designed relational tables, keys, constraints, sequences, sample data, views, and an index to support consistent, queryable data.

EDUCATION AND PROFESSIONAL DEVELOPMENT

New Jersey Institute of Technology | Newark, NJ
