PROFESSIONAL SUMMARY

Operations and business systems professional with 5+ years of experience supporting high-volume workflows, including 4+ years at Comcast/Xfinity. Builds Excel reporting and tracking tools, reviews account data, investigates policy and system questions, documents decisions, and coordinates accurate follow-up. Uses Microsoft Power Automate and basic scripting to streamline recurring work, with ServiceNow knowledge management training and academic project experience. M.S. Business & Information Systems in progress.

CORE STRENGTHS

Data & Analysis: Excel reporting and dashboards | Data validation and accuracy | Trend and exception analysis | Tableau (coursework) | SQL (coursework)
Process & Systems: Process improvement | Process documentation | Issue investigation | Policy and procedure interpretation | Microsoft Power Automate | Basic scripting | ServiceNow Knowledge Management
Communication & Coordination: Cross-team coordination | Workload prioritization | Customer operations | Clear written communication

PROFESSIONAL EXPERIENCE

Comcast / Xfinity | Sales Representative | Remote | April 2022 - Present

- Manage about 25 customer interactions daily, more than 5,000 annually, by clarifying needs, reviewing account data and available options, and determining practical next steps.
- Investigate account, policy, procedure, and system questions using current resources and support partners; organize findings and explain clear, accurate next steps.
- Maintain accurate, complete records in CSG and other internal systems by documenting interactions, decisions, follow-up, and cross-team handoffs.
- Build Excel tracking tools and use Microsoft Power Automate and basic scripting to streamline recurring personal workflows and follow-up.

Harte Hanks | Customer Service Representative | Remote | February 2021 - January 2022

- Researched customer inquiries in a fast-paced remote environment, documented relevant details, and communicated clear next steps.
- Prioritized and routed high-volume email requests, maintaining organized records for accurate, consistent team handoffs.

SELECTED PROJECTS

Excel Activity Reporting System | Independent Portfolio Project | Synthetic Data

- Built a controlled Excel workflow that captures daily activity, consolidates results into a monthly dashboard, and compares overall goal attainment with day-to-day consistency.
- Added configurable goals, validation controls, and exception-focused views so users can identify gaps, review results efficiently, and focus follow-up on the days that need attention.

Registrar Knowledge Portal | ServiceNow Lab | Academic Project

- Configured a searchable ServiceNow knowledge portal, organized 42 lab articles into 12 student-facing categories, and revised registration guidance for faster scanning of steps, common errors, and support contacts.

Business and Cost Analysis | CAPSIM | Academic Project

- Reviewed seven years of sales, market share, costs, profit, cash flow, and product strategy, then summarized trends and recommended next steps.
