

Jonathan Capalbo

BUSINESS OPERATIONS | REPORTING | BUSINESS SYSTEMS

jonathancapalbo1@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Business operations professional transitioning into analysis, with 5+ years supporting high-volume workflows, including 4+ years at Comcast/Xfinity. Builds Excel reports and dashboards, reviews account and operational data, investigates process and system issues, and documents findings for accurate decisions and follow-up. Uses Microsoft Power Automate and basic scripting to automate recurring workflows, saving several hours of manual work each week. M.S. Business & Information Systems in progress, with ServiceNow training and hands-on academic project experience.

CORE STRENGTHS

Data & Analysis: Excel reporting and dashboards | Data validation and accuracy | Trend and exception analysis | Tableau (coursework) | SQL (coursework)

Process & Systems: Process improvement | Process documentation | Issue investigation | Policy and procedure interpretation | Microsoft Power Automate | Basic scripting | ServiceNow Knowledge Management

Communication & Coordination: Cross-team coordination | Workload prioritization | Customer operations | Clear written communication

PROFESSIONAL EXPERIENCE

Sales Representative

Comcast / Xfinity

April 2022 - Present

Remote

- Handle 25+ customer interactions daily, more than 5,000 annually, reviewing account data and available options to determine accurate next steps.
- Investigate account, policy, procedure, and system questions using current resources and support partners; organize findings and communicate clear next steps.
- Maintain accurate records in CSG and other internal systems, documenting decisions, follow-up, and cross-team handoffs.
- Build Excel tracking tools and automate recurring workflows using Microsoft Power Automate and basic scripting, saving several hours of manual work each week.

Customer Service Representative

Harte Hanks

February 2021 - January 2022

Remote

- Researched customer inquiries in a high-volume remote environment, documented relevant details, and communicated clear next steps.
- Prioritized and routed high-volume email requests, maintaining organized records for accurate, consistent team handoffs.

SELECTED PROJECTS

Excel Activity Reporting System

Team-Used Workflow | Portfolio Case Study

- Built a team-used Excel workflow that captures multiple data points across recurring activities, consolidates results into a monthly dashboard, and analyzes goal attainment and day-to-day consistency.
- Added configurable goals, validation controls, and exception-focused views so users can identify gaps, review results efficiently, and focus follow-up where needed.

Registrar Knowledge Portal

ServiceNow Lab | Academic Project

- Configured a searchable ServiceNow knowledge portal, organized 42 lab articles into 12 student-facing categories, and revised registration guidance for faster scanning of steps, common errors, and support contacts.

Business and Cost Analysis

CAPSIM | Academic Project

- Analyzed seven years of sales, market share, costs, profit, and product strategy; summarized trends and recommended next steps.
