SUMMARY

Customer operations professional with experience automating report distribution, investigating account and system issues, and documenting team handoffs. Projects cover Excel reporting, Tableau analysis, and business-system controls. Pursuing an NJIT M.S.; available for full-time work.

PROFESSIONAL EXPERIENCE

Customer Account Executive | Comcast / Xfinity

April 2022 - September 2026 | Remote

- Built Power Automate flows to filter and distribute daily sales and team-adherence reports through email and Microsoft Teams for a team of 10, reducing manual searching and filtering.
- Tested an Excel activity tracker, identified days missing from monthly totals, and corrected the formulas so those days contributed correctly.
- Investigated account and system issues using customer records, policies, and internal support teams; documented decisions and follow-up in CSG.

Customer Service Representative | Harte Hanks

February 2021 - January 2022 | Remote

- Investigated customer inquiries, categorized and routed email requests, and maintained records for follow-up and team handoffs.
- Created OneNote guides for teammates covering task steps, information locations, and escalation contacts.

SELECTED PROJECTS

Activity Reporting: Excel and Tableau

Workplace-origin Excel | Fictional portfolio extension

- Rebuilt the workplace-origin Excel workflow with 465 fictional records, validation, and monthly reporting. Added AI-assisted Tableau and React views for outcome counts, adjustable daily targets, and record drilldowns.

NJIT Registrar ServiceNow Portal

Academic project | ServiceNow school lab

- Configured a searchable portal, organized 42 articles into 12 categories, and revised registration guidance with steps, common errors, and support contacts.

Arcade Operations Ticketing Modernization

Self-directed planning study | Hypothetical

- Mapped a proposed ticketing workflow with user stories, acceptance criteria, and requirements traceability to planned UAT. No system was implemented; tests were not executed.

SKILLS

Business analysis (projects): Process mapping, user stories, acceptance criteria, traceability, UAT planning.

Reporting / automation: Power Automate; Excel tables, SUMIF/COUNTIF, cross-sheet formulas, data validation, conditional formatting, and reconciliation (public sample); PivotTables (coursework).

Workplace tools: Excel, Microsoft 365, SharePoint, OneNote, Smartsheet, and CSG.

Data / systems: Oracle SQL - joins, keys, constraints, views (academic); ServiceNow Knowledge Management and Service Portal (lab).

EDUCATION

New Jersey Institute of Technology | Newark, NJ

M.S. Business & Information Systems | Expected August 2028

B.S. Business Administration | 2024 | GPA: 3.97 | Dean's List, all semesters

Training: ServiceNow Administration Fundamentals; ServiceNow Knowledge Management Fundamentals
