SUMMARY

Customer operations professional with experience automating report distribution, investigating account and system issues, and documenting team handoffs. Project work covers Excel reporting, ServiceNow, and requirements analysis. Pursuing an M.S. in Business & Information Systems at NJIT.

PROFESSIONAL EXPERIENCE

Customer Account Executive | Comcast / Xfinity

April 2022 - September 2026 | Remote

- Automated daily Excel report distribution by email and filtered report delivery to Teams using Power Automate; also scheduled messages and confirmation emails.
- Investigated account and system issues by reviewing customer records, policies, and procedures and consulting internal support teams to determine next steps.
- Handled about 25 customer interactions daily, documenting decisions, follow-up, and cross-team handoffs in CSG and other internal systems.

Customer Service Representative | Harte Hanks

February 2021 - January 2022 | Remote

- Investigated customer inquiries, categorized and routed email requests, and maintained records for follow-up and team handoffs.
- Created Microsoft OneNote reference guides for teammates to supplement limited official documentation.

SELECTED PROJECTS

Excel Activity Reporting System

Independent portfolio project | Fictional data

- Built an Excel workbook with input validation, formula-based monthly consolidation, and a dashboard. Reconciled source records to totals and separated monthly product goals from the daily target.

NJIT Registrar ServiceNow Portal

Academic project | ServiceNow school lab

- Configured a searchable portal, organized 42 articles into 12 categories, and revised registration guidance with steps, common errors, and support contacts.

Arcade Operations Ticketing Modernization

Self-directed project | Hypothetical planning study

- Mapped current and proposed processes; linked 10 proposed requirements and acceptance criteria to 14 planned user acceptance testing (UAT) scenarios. No system was implemented or tests executed.

SKILLS

Business analysis (projects): Process mapping, requirements, acceptance criteria, UAT planning.

Reporting / automation: Power Automate; Excel tables, SUMIF/COUNTIF, cross-sheet formulas, data validation, conditional formatting, and reconciliation (portfolio); PivotTables (coursework).

Workplace tools: CSG, SharePoint, Smartsheet, and OneNote.

Data / systems: Oracle SQL - joins, keys, constraints, views (academic); ServiceNow Knowledge Management and Service Portal (lab).

EDUCATION

New Jersey Institute of Technology | Newark, NJ
